

Normalized Difference in Vegetation on the Grizzly Creek Fire

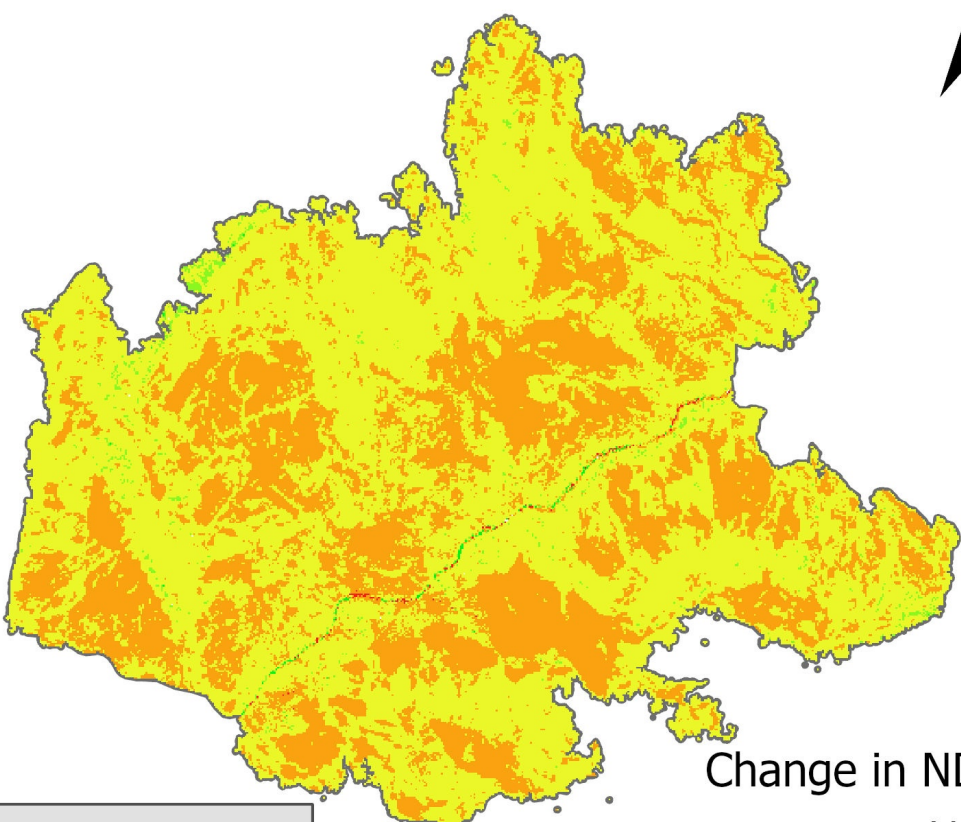

Pre-fire NDVI

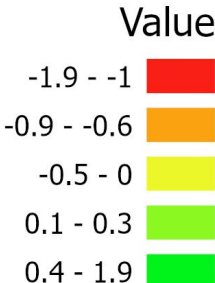

Pre-fire NDVI

Relative Change in NDVI Post-fire

Change in NDVI

Grizzly Creek Boundary

Normalized difference in vegetation (NDVI) from the Grizzly Creek fire area prior to the fire and the relative change in NDVI post fire. Relative change in NDVI was calculated using pre-fire NDVI and post-fire NDVI. Landsat8 Band 4 and 5 were used to create indices from data collected on 07/09/2020 and 09/04/2020.
